Please describe a summary of work undertaken by the SAC to improve student achievement and school performance.

1. **SSP Goals**

Literacy & Math: SAC is acquiring knowledge of our school profile and the progress over the year regarding students meeting or not meeting in Reading. Conversations on the changes in our school data overtime and effective instructional strategies and supports for students for literacy and math occur at each meeting.

Well Being: Our SAC participated in the Physically Activity Framework Survey. This led to great conversations of issues we would like to work on at our own school site to enhance outdoor learning opportunities and the use of outdoor space for our students. Our SAC also participated in conversations supporting our Outdoor Learning Space.

2. **Pandemic Consultation** – Throughout the pandemic the SAC has provided guidance and community/family lens on supporting the school and our families. This has supported a stronger communication network and allowed us to problem solve issues in ways that supports our families and learning community.

3. **School Supplies** – Continuing to support the purchase of student school supplies was seen as a priority. The SAC members felt this was supportive to our learning community and have committed SAC funds for school supplies for the 2022 – 2023 school year.

Please list any significant milestones and success stories that the SAC would like to highlight.
